Smart Parking Platform – Project Management Plan

PART 2: STAKEHOLDER ANALYSIS & MANAGEMENT PLAN

Stakeholder Identification Register

Stakeholder Category	Specific Stakeholder	Role & Core Needs	Impact Level
End Users	Drivers & Vehicle Owners	Need fast spot identification, reliable navigation, and quick mobile payments.	High
Clients / Partners	Parking Facility Operators	Need live occupancy tracking, flexible pricing tools, and financial analytics.	High
Regulators	City Transportation Depts.	Require city ordinance compliance, legal traffic management, and reduced gridlock.	Medium
Internal Operations	System Administrators	Need platform stability, user management, and secure system operation.	High
Internal Operations	Finance & Billing Personnel	Focus on payment processing integration, revenue collection, and digital receipts.	Medium

Power vs. Interest Grid

- Manage Closely
- Keep Informed
- Keep Satisfied
- Monitor

Development Team Structure

Customer	Engineer	Integration
Mobile App Team	Backend/API	Payment
Web App Team	Mapping/Location	Testing

Stakeholder Communication Strategy

- **Facility Operators**
- **Development Teams**
- **City & Municipal Regulators**
